Boston, Mass,

Dear Porter:-

Your letter at hand. It is very difficult for anyone not absolutely familiarr with current pricesthe value United States coins. No one catalogue will help you any. Nine out of ten of the half dollars even in uncirculated or in proof condition, bring much over face. Possibly the best sale catalogue for you to get, provided you cab get one priced, is the sale of Malcolm N. Jackson, May 28, 1913, held by the United States Coin Co. The Public Library possible has this. My advise would be to have Sears look them over. He will give you as honest an opinion as anyone and you cannot dé much better than that.

Yours very truly,
